GPU support

機器學習實務

NVIDIA® GPU card with CUDA® Compute Capability 3.5 or higher.

GeForce and TITAN Products

GPU	Compute Capability
NVIDIA TITAN RTX	7.5
Geforce RTX 2080 Ti	7.5
Geforce RTX 2080	7.5
Geforce RTX 2070	7.5
Geforce RTX 2060	7.5
NVIDIA TITAN V	7.0
NVIDIA TITAN Xp	6.1
NVIDIA TITAN X	6.1
GeForce GTX 1080 Ti	6.1
GeForce GTX 1080	6.1
GeForce GTX 1070	6.1

cuDNN

NVIDIA cuDNN

The NVIDIA CUDA® Deep Neural Network library (cuDNN) is a GPU-accelerated library of primitives for **deep neural networks**. cuDNN provides highly tuned implementations for standard routines such as forward and backward convolution, pooling, normalization, and activation layers.

Deep learning researchers and framework developers worldwide rely on cuDNN for high-performance GPU acceleration. It allows them to focus on training neural networks and developing software applications rather than spending time on low-level GPU performance tuning. cuDNN accelerates widely used deep learning frameworks, including **Caffe**, **Caffe2**, **Chainer**, **Keras**, **MATLAB**, **MxNet**, **TensorFlow**, and **PyTorch**. For access to NVIDIA optimized deep learning framework containers, that has cuDNN integrated into the frameworks, visit **NVIDIA GPU CLOUD** to learn more and get started.
